Impaired driving continues to be a significant issue in Louisiana and a factor in nearly half of all deaths on Louisiana’s roads. Effective enforcement remains the key to reducing the occurrence of impaired driving and the potentially deadly crashes that it causes. The Louisiana Highway Safety Commission is sponsoring a one-day workshop for state and local law enforcement officers to provide current information on the criminal, administrative and legal considerations of the arrest and prosecution of impaired drivers. The workshops are being coordinated by the Louisiana Local Technical Assistance Program and are free of charge to public law enforcement officers.

The agenda includes topics related to the basics of impaired driving arrest and prosecution including:

- Overview of the laws related to impaired driving
- Search and Seizure issues
- Field Sobriety Test and BAC review
- Effective DUI report writing
- The administrative hearing and criminal prosecution process.

Classes have been conducted in seven locations across the state. The last two will be held in August as shown below:
