## About the Course

Tractor mower combinations may be one of the most underestimated and most deadly pieces of equipment used by public works agencies. The importance of proper operator training can't be overstated; this course highlights the importance and benefits of good operator training.

This training is designed for operators, foreman and supervisors who are responsible for the safety, maintenance and operation of industrial and agricultural tractors and mowing equipment used for cutting interstate highways, state roads and levee's. Types of equipment referenced includes the following:

- All sizes and makes of tractors
- Flail mowers
- Rotary mowers
- Boom mowers
- Sickle bar mowers

## Program Outline

- Introduction to tractor and mower operations
- Most common accidents associated with tractor mowers
- Work zone safety and hazard awareness
- Operator daily checks and maintenance
- Tailgate safety talk
- Operator training tips
- PTO Safety Awareness
- Operator health — dealing with extreme working conditions and fatigue

*The Louisiana Transportation Research Center is a Louisiana State Board of Registration for Professional Engineers and Land Surveyors, approved Sponsor/Provider of Continuing Professional Development.*

*Professional Development Hour (PDH) credit will be awarded as follows: fifty (50) contact minutes of instruction or attendance = one (1) PDH.*

**For additional information about the seminar, or if you have questions concerning registration, contact Bob Breaux at the**
