The Louisiana Local Technical Assistance Program Presents
Temporary Traffic Control for Local Agencies In Accordance With MUTCD Part 6
(6 Professional Development Hours)

The Louisiana Transportation Technology Transfer Center is part of the Federal Highway Administration's Local Technical Assistance Program (LTAP) for local governments. The program, administered by the Louisiana Transportation Research Center, is a cooperative effort between the Louisiana Department of Transportation and Development, the Federal Highway Administration, and Louisiana State University.
TEMPORARY TRAFFIC CONTROL for LOCAL AGENCIES
In Accordance With MUTCD Part 6

Registration Form
Pre-registration required one week in advance of location. Please indicate the workshop for which you are registering:

- October 14 .............. Bossier City
- October 15 .............. Monroe
- October 22 .............. Alexandria
- October 23 .............. Lake Charles
- October 29 .............. Rayne
- October 30 .............. Baton Rouge
- November 5 ............... Madisonville
- November 6 .............. Metairie

About the Course

Any roadway in Louisiana, open to public travel, must be maintained. Maintenance and utility work, as well as incident zones are unexpected and unusual situations that are faced by road users. Road user and worker safety in temporary traffic control zones should be an integral and high priority element of every project. The responsibility for the design, placement, operation, maintenance and uniformity of traffic control devices shall rest with the public agency having jurisdiction.

MUTCD manuals and reference guides will be provided to each agency, supervisors, and crewmen based upon their involvement with the selection, design, and setup of temporary traffic control zones.

Instructor

David L. McFarland, Teaching Associate, with the LTAP Center has extensive experience in safety and training. A trainer for LTAP since 1993, he previously worked in the LDOTD Safety Section for nine years. Mr. McFarland has completed American Traffic Safety Services Association classes on Work Zone Supervision and Work Zone Design. He is also a retired certified instructor for the U. S. Army.

Enrollment, Registration, and Cancellation Policy

Pre-registration is required one week in advance. Registration is $15.00 for parish or public sector personnel and $35.00 for all others. This fee covers all materials, and lunch. Registrants will receive a confirmation of their reservation. If an agency is unable to mail in the registration fee before the deadline, please phone, FAX, or e-mail the LTAP office with the names of the workshop participants (800-595-4722 in-state or 225-767-9117; FAX 225-767-9156; bbreaux@ltrc.lsu.edu). You can even register on-line at www.ltrc.lsu.edu/ltap.html.

The Louisiana Transportation Research Center is a Louisiana State Board of Registration for Professional Engineers and Land Surveyors, approved Sponsor/Provider of Continuing Professional Development (CPD). Professional Development Hour (PDH) credit will be awarded as follows: fifty (50) contact minutes of instruction or attendance = one (1) PDH.
