

TTEC Mission

TTEC is a progressive partnering effort between the public and private sectors of the transportation industry.

TTEC's mission is to promote the pursuit of lifelong learning and development opportunities to the transportation community.

government, industry, and academia*

TTEC At A Glance

Pursuing Excellence in Knowledge Transfer

TTEC is dedicated to the delivery of transportation training, professional development opportunities, continuing education, and technology transfer to engineers, technicians, and other professionals from Louisiana's public and private sectors.

- TTEC specializes in adult learning. Content-rich training is delivered through a variety of mediums: on-site instruction, videoconferences, webinars, and web-based content.
- When you attend a training event at TTEC, you can focus on learning. TTEC provides the latest in distance learning technology along with the support staff to manage it. We offer a variety of learning configurations—from small, hands-on classes to large group meetings.
- Participating in training events at TTEC is an effective way to consolidate the amount of off-site training you need. TTEC's location on LSU's campus is easily accessible for students throughout the region.
- TTEC's state-of-the-art transportation research library offers access to worldwide information sources such as the LSU Library database and Transportation Libraries Catalog. A full-time librarian is on site to assist with any research needs. Be sure to visit the link to the library's homepage at www.ltrc.lsu.edu/library.html.

Visit the LTRC calendar of events at www.ltrc.lsu.edu to see the variety of events offered through TTEC.

Sample of Activities

- Offering more than 350 courses, including: NHI, FHWA, computer, and safety classes
- Professional development courses led by distinguished visiting professors
- Event management of conferences, seminars, and workshops

Our Facility Includes:

- 100-seat classroom-style lecture auditorium
- Two general purpose classrooms
- Hands-on computer training classroom
- Executive conference room
- State-of-the-art research library

Our Presentation Technology Includes:

- HD 1080p projector
- Two 55" 1080p LCD confidence monitors
- Desktop computer
- XGA document camera
- Virtual meeting & webinar hosting
- Laptop connections
