

RFP for LTRC 20-1ST #1
DEVELOPING LIVE LOAD DISTRIBUTION FORMULAS
FOR CAST-IN-PLACE CULVERTS IN LOUISIANA

Q1: Can our company get with the PI to reply to the RFP

A1: Sure, there is no problem with that.

Q2: Would there be additional field work?

A2: Based on the RFP, the answer would be no. However, if the proposer can convince the Project Review Committee (PRC) that by performing additional field work, better results can be obtained, then the proposer may do so. It is to be noted that the proposed budget is estimated to be \$100,000 based on RFP content.

Q3: Our firm is from out-of-state, do we have to team up with another firm in Louisiana to respond to the RFP.

A3: The answer is no.

Q4: Can we get a copy of the standard plans for the box culverts for details.

A4: The following link is for a zipped file that contains standard details for 36 box culverts.
