

Maintenance and Rehabilitation of Historic Bridges

One-day training session. Two date options:

May 1, 2018 **May 2, 2018**

8 a.m. to 5 p.m.

Louisiana Transportation Research Center in cooperation with the
Louisiana Department of Transportation and Development

Transportation Training and Education Center
4099 Gourrier Avenue, Room 175
Baton Rouge, Louisiana 70808

Part of Louisiana's Federal Highway Administration Environmental Excellence award-winning program, this course is designed to educate attendees about the process for developing and implementing projects affecting historic bridges in Louisiana, including:

- Adherence to preservation standards that apply to historic bridge rehabilitation
- Guidelines for project development following the LADOTD Programmatic Agreement
- Consultation and review requirements
- Best practices and case studies for historic bridge rehabilitation from Louisiana and other states

The training is a minimum personnel requirement for LADOTD historic bridge projects. Eight professional development hours upon successful completion.
