I 69 National Corridor

Legend

- I-69 National Corridor

Source: Wilbur Smith and Associates and HNTB Corporation, I-69 (Corridor 18) Special Environmental Study 1995

I-69/Trans-Texas Corridor Study Figure 1.1
I-69: Southern Portion

- Runs from the tip of Texas (Brownsville & Laredo) Through Houston area To Louisiana
- I-69 Trans-Texas Corridor
- Broken down into 14 SIUs: Sections of Independent Utility
SIU 1 Preliminary Corridors with Evaluation Sections

Note that LA is interested in Evaluation Section 1D Located in SIU 1
SIU 1 Evaluation Section 1D

- Extends about 25 miles
- Corridors are roughly 4 miles wide
SIU 1: Corridors Carried Forward

1D4a
- crosses Sabine east of Logansport

1D3b
- shortest length of corridors crossing the Sabine River west of Logansport

1D1a
- provides connectivity b/w corridors west of Carthage and Louisiana.
Current Status

- 2 Tier Environmental process
- Release of the Tier 1 document is projected for June 2007
- Tier 1 document will identify the recommended preferred corridor
- After the Public Hearings, they will have a preferred corridor to be carried into Tier 2
