Designing Streets for Bicycle Safety

A professional development workshop for traffic engineers, planners, and other transportation professionals

Monday July 24, 2006
9-5pm
1340 Poydras, 21st Floor Conference Room
New Orleans

Optional bike ride + classroom design exercise:
Tuesday July 25
8-12pm
location TBD

About the course:
This one-day professional development workshop is designed to teach traffic engineers, planners, and other transportation professionals good design principles of bicycle facilities such as on-street dedicated bicycle lanes, shared bicycle routes, and grade separated bicycle paths. Specific topics covered are:

- Principles of bicycling and designing for bicyclists
- On-road bikeway designs
- Intersection design for bicyclists
- Signing and marking facilities
- Shared use path design

Optional bike ride:
Attendees can also participate in an optional field exercise in the form of a group bike ride and classroom design discussion. This short, slow-paced, facilitated bike ride will be lead by course instructor Michael Moule, and will give participants an opportunity to see the street from the perspective of a commuter cyclist before returning to the classroom to discuss problems and solutions they encountered on the road. The morning bike ride will last between 1 to 1.5 hours.
Designing Streets for Bicycle Safety

A professional development workshop for traffic engineers, planners, and other transportation professionals

Cost:

- **Public sector employees:** $10 for one day course
  $35 for one day course + bike ride (includes $25 refundable deposit)*

- **Private sector employees:** $100 for one day course
  $125 for one day course + bike ride (includes $25 refundable deposit)*

- **Community members:** $10 for one day course
  $35 for one day course + bike ride (includes $25 refundable deposit)*

* You must pre-register to participate in the bike ride. **If you pre-register for the ride, and show up on time for the ride, your deposit will be returned.** If you are pre-registered and do not show up for the ride at the scheduled time, you will forfeit your deposit. **If the ride is cancelled (e.g. due to weather), all pre-registration deposits will be refunded.** Registrants can call on the morning of the ride to find out if it will be cancelled if there is a chance of rain.

Details:

- Lunch will be provided to all participants.
- All participants will receive a copy of AASHTO’s *Guide for the Development of Bicycle Facilities, 3rd Edition* (a $45 value).

Professional Development Hours:

This one-day workshop counts as **8 PDHs** for professional engineers, and **12 PDHs** for engineers who participate in the workshop and the bike ride.

Registration:

Download a Registration Form (a Word document), and mail it along with a check to the address provided. If you have trouble with this form, please contact Audrey Warren, 504-568-6608, awarren@norpc.org. Space is limited so register early.

Registration deadline is July 14
