43

YEARS'
EXPERIENCE

“
Excellent communication; they are good at understanding your desire with minimal input. Very professional and without any issues.
 Jim Knight, Department

“
The Arcadis team is very knowledgeable and the LADOTD ITS Section staff has had a very pleasant experience working with them. Their responsiveness, attention to details, and timely delivery of the project within the allotted budget have been outstanding. We have enjoyed working with them and would strongly recommend their services.
 ITS Maintenance & Communications Engineer

“
The LADOTD ITS Section staff has been working with them on this project. Arcadis provided quality service and within the budget. We would strongly recommend their services.
 As the LADOTD Project Manager on this contract, it is my great pleasure to provide this reference letter for an outstanding performance by Arcadis' staff on this project...Arcadis' project management, attention to details, documentation, client focus, and quality focus were noteworthy... It truly felt like a team spirit working with them... Arcadis went above and beyond to successfully deliver this project and significantly exceeded our expectations, especially through communication and outreach.
 April Renard, LADOTD Highway Safety Manager

“
The Arcadis team is very professional and the LADOTD ITS Section staff has had a very pleasant experience working with them. Their responsiveness, attention to details, and timely delivery within the allotted budget have been outstanding. We have enjoyed working with them and would strongly recommend their services.
 Erik Smith, LADOTD ITS Maintenance & Communications Engineer

“
...good job of... and produced a very professional document. We would strongly recommend their services. We have enjoyed working with them and would strongly recommend their services. We have enjoyed working with them and would strongly recommend their services.
 Planning Development
 Jim Tolson, Former GDOT State Signal Engineer

Thanks!
