## **River Center Exhibition Hall**

Monday, February 26, 5:00 - 8:00 p.m. Tuesday, February 27, 7:00 a.m. - 3:15 p.m.

3M Company	Retro-reflective Sign Sheeting, Pavement Markings, Traffic Safety
Access Sciences	Access Sciences provides project services, outsourced business functions, and expert staff placement. Our focus is information management and governance, records management, and regulatory compliance.
ACEC - American Council of Engineering Companies	ACEC Louisiana is a non-profit association representing 150 engineering firms in Louisiana and backed by a national office in DC.
Acela Truck Company	Acela Truck Company produces the Monterra™ family of extreme-duty trucks; the most capable and versatile chassis in the North American truck market today.
Advanced Drainage Systems, Inc.	ADS,Inc. offers a complete line of HDPE/HP pipe, fittings & other state-of-the-art products to help solve storm water management and sanitary sewer challenges.
AECOM Technical Services (Silver Sponsor)	We are a global network of experts working with clients, communities and colleagues to develop and implement innovative solutions to the world's most complex challenges.
AIMS International LLC	Fiberglass guardrails and bus stops
Angelle Materials	Cement slurry for spill stabilization and ready mix smart concrete technology.
Applied Information	Applied Information is active in the Intelligent Transportation System industry. We make field devices (such as School Timer Beacons and Preemption devices) for a variety of traffic applications and use wireless telematics, cloud computing, and web software to turn Data into Information for our customers
APS Engineering & Testing	Geotechnical Investigation, Subsurface Investigation, Environmental, Civil Design, Construction Material Testing, Construction Management
ARCADIS (Gold Sponsor)	Arcadis understands the changing nature of our world and creates mobility solutions that are built to last.
Ardaman & Associates	Geotechnical services: Field exploration, laboratory testing and engineering
Baum Environmental Group, Inc	Baum is an environmental consulting firm that specialized in storm water and erosion control for construction projects.
Caliper Corporation	Caliper Corporation is the developer of TransCAD, the predominant and premier software package for travel demand modeling in North America. Caliper is also the developer of TransModeler, a micro-simulation software package that provides unprecedented capability, usability, and capacity for micro-scopic traffic modeling and dynamic traffic assignment. Both applications are extensible and fully-integrated with Caliper's full-featured and user-friendly geographic information and often deployed in tandem for a complete integration of macroscopic, mesoscopic, and microscopic modeling techniques.
Cobb, Fendley & Associates, Inc.	CobbFendley places emphasis on community relationships to help us design solutions that create stronger communities. Our engineering and surveying services are constantly evolving with enhancements in technology, the industry, and each local environment.

Columbia Southern University	Columbia Southern University offers online associate, bachelor's and master's degrees in fields such as, occupational safety and health, fire administration, criminal justice and business administration.
Concrete & Aggregates Association of Louisiana	Promotes the use of concrete and provide education on new concrete technologies.
Contech/Quickrete Holdings	Drainage products
Crafco	Pavement maintenance materials and equipment
CSRS, inc.	For 40 years, CSRS has helped create strong communities built upon solid infrastructure, efficient facilities, and purposeful development. CSRS provides program management, owner and client representation, civil engineering, architectural, environmental, and grants management services to make such outcomes possible.
ECM Consultants, Inc.	Engineering, architecture, construction management and construction inspection.
EJ, Inc.	Construction Castings
Ergon Asphalt & Emulsions	Ergon Asphalt & Emulsions, Inc., considered "the resource" in the asphalt industry develops, produces and markets a variety of asphalt products. The company markets various grades of asphalt and emulsions for public and private infrastructure needs across the United States from over 40 owned and leased facilities.
Eustis Engineering, LLC	Eustis Engineering's services encompass many disciplines including the performance of the following: Geotechnical exploration, soil mechanics laboratory tests, field instrumentation installation and monitoring, non-destructive testing of piles and shafts, geotechnical engineering design, construction quality control and materials testing
FENSTERMAKER (Gold Sponsor)	Founded in 1950, C.H. Fenstermaker & Associates, L.L.C. is a multi-disciplinary firm offering engineering, surveying and environmental consulting
Forte & Tablada, Inc. (Gold Sponsor)	Forte & Tablada, Inc. is a professional multi-disciplinary engineering, surveying, and advanced measurements firm that has been in business for over 55 years.
Forterra	Forterra is one of the largest light and heavy building products manufacturers for the construction industry. We employ approximately 6,000 people and operate more than 130 facilities with products available throughout the U.S. and Canada.
Fugro USA Land, Inc.	Fugro is the world's leading, independent provide of vital earth and engineering data, information and consulting required for the design, construction and maintenance of large land and marine infrastructure, industrial installation, and buildings. We operate around the globe, predominately in the oil and gas, sustainable energy and infrastructure markets, both offshore and onshore.
G.E.C., Inc.	We at GEC are committed to being the diversified consulting and engineering firm of choice with national stature that provides services delivered on time at a reasonable cost to our clients, at a reasonable profit for our firm.
G360, LLC	G360 is a Survey, Engineering, and Construction equipment and supply dealer. We offer total stations, GPS, and construction levels and lasers.
GeoEngineers	GeoEngineers, Inc. is a long-established Baton Rouge geotechnical and environmental engineering firm. Our Baton Rouge location—boasting more than 30 staff, four drill rigs and a fully accredited soil mechanics laboratory—is backed by more than 300 professionals firm-wide. GeoEngineers uses our expertise to help thousands of clients in the transportation, industrial and coastal markets, providing expert consulting services from preliminary stages of projects through the construction monitoring phase.
GeoSearch	GeoSearch provides environmental information services to help assess and manage environmental risk.
GIS Engineering, LLC	GIS Engineering & Construction is an integrated market-leading engineering and construction services organization delivering flexible, client-focused solutions in all markets. Delivering Value from Concept to Asset Management.
GOTECH	A professional Engineering and consulting firm. Our services include but are not limited to: Civil Engineering design, Surveying and Subsurface Utilities Engineering, CE&I, Program Management, Subdivision Plats and Mapping
Greenman-Pedersen, Inc.	Greenman-Pedersen, Inc. is a multi-discipline engineering firm that has been providing design, planning, and CEI services throughout the US for over 50 years.
Gresham, Smith & Partners (Bronze Sponsor)	GS&P is a multi-disciplinary design firm performing transportation engineering services, including analysis design and implementation of roadway, bridge, traffic, planning and ITS projects.
GroGreen Solutions	Permanent & temporary erosion control and silt fence.
Halff Associates, inc.	Halff for over 65 years has provided engineering, architecture, landscape architecture, planning and surveying for clients in the government, corporate, development, education and transportation markets.
Hardesty & Hanover (Silver Sponsor)	Hardesty & Hanover is a full-service transportation engineering firm with over 130 years of experience delivering bridge and highway design services.
HNTB Corporation (Gold Sponsor)	HNTB Corporation is an employee-owned infrastructure solutions firm serving public and private owners and contractors. HNTB professionals deliver a full range of infrastructure-related services, including award-winning planning, design, program and construction management.
Huval & Associates, Inc. (Gold Sponsor)	Bridge, structural and construction engineering.
Hydro-Technologies, Inc./ Modified Concrete Suppliers, LLC	Specializing in hydrodemolition services, including Fast Track technique to preserve bridge deck surfaces. Used with latex modified concrete to provide 25+ years of extended life.
Impact Recovery Systems	Manufacturer providing high-performance, flexible traffic and safety devices. Our patented Anti-Twist Reactive Spring Assembly allows our posts and panels to sustain impacts from any direction while returning to its original forward facing position.
Industrial Fabrics Inc.	For over 30 years, Industrial Fabrics has proudly served many diverse clients in the construction, industrial and residential industries along the Gulf Coast and around the world. Our mission is to supply the best products that preserve and to sustain our environment. Our sales and engineering staff are fully geared to support your project from engineering and material logistics to on-site technical assistance. We are a primary manufacturer and distributor of geo-technical products, including geotextile fabrics, geogrids, liner material, silt fence, erosion control, pipe protection and paving products for the construction industry.
Infogroup	The ReferenceUSAGov database contains detailed information on over 170 million U.S. Businesses and 254 Million U.S. Residents to identify risk and investment opportunities.
Intertek PSI	Geotechnical Engineering, Environmental Consulting, Construction Materials Testing
ITS (Gold Sponsor)	Sales, Service, Installation and Maintenance of ITS equipment. Engineering and Consulting Services.
LAPA (Gold Sponsor)	The Association serves its members by promoting the Louisiana Asphalt Pavement Industry, working toward a better transportation infrastructure; partnering with governmental transportation departments; encouraging ethical behavior, sound business methods and practices; and being the chief advocate of better asphalt production. Our goals are to foster and advance the progress of the industry and provide the citizens of Louisiana with a safe quality road system.

Traffic Signal / Safety / ITS Equipment and Technical Services Connected Vehicle and Smart City applications
Transportation engineering design, environmental, CE&I, geotechnical, material bridge design and inspection, disaster response.  Trafficware  Trafficware specializes in research, design, and manufacturing of traffic signal technology. Also the company's Synchro traffic simulation and optimizatio software is used in 90 countries around the world.  TRC (Gold Sponsor)  TRC is a national engineering, consulting and construction management firm providing integrated services to the power, oil and gas, environmental and infrastructure markets. www.trcsolutions.com  Trinity Highway Products, LLC  Trinity Highway is a leading manufacturer and recognized innovator of highway safety products including guardrail, guardrail end treatments, crash cush ions, truck-mounted attenuators, and cable barrier systems.  Trinity Lightweight  Trinity Lightweight is America's leading producer of expanded shale and clay lightweight aggregates for asphalt chip seals, structural lightweight concrete and internal curing of concrete.  Troxler Labs  Developing, manufacturing and servicing of precision quality control and measurement equipment  tsaADVET  We create, sell and support our Falcon/DMS family of Engineering Document Management products. LADOTD is one of several DOT clients.  Twincrest Technologies  Radar equipment  Volkert (Gold Sponsor)  Volkert, Inc. is an infrastructure engineering firm serving state and federal agencies, local and municipal governments, private industry and select international clients.  Vulcan Materials  Vulcan Materials  Outcan Materials Company is the nation's largest producer of construction aggregates—primarily crushed stone, sand and gravel—and a major producer of aggregates-based construction materials, including asphalt and ready-mixed concrete. Our coast-to-coast footprint and strategic distribution network align with and serve the nation's growth centers.	Terracon	Terracon is an Environmental, Geotechnical and Materials Testing firm with over 150 offices located throughout the U.S. Terracon has 4 Louisiana offices located in Baton Rouge, Lake Charles, New Orleans and Shreveport.
